

# DELCO-LIGHT

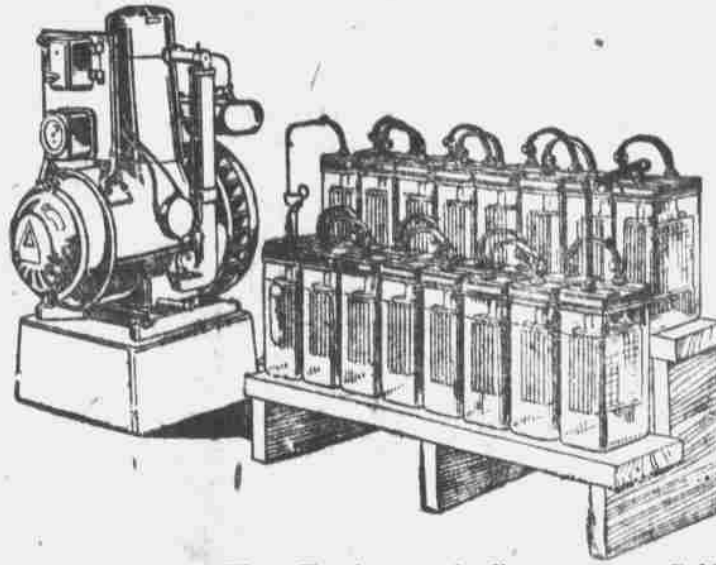

**The Complete Electric Light and Power Plant for Country Homes, Stores, Camps and Boats, Cotton Gins and Plantation Properties.**

**DELCO-LIGHT** makes it possible to work on into the night whenever necessary, because the lights are safe.

The gauze-screened oil lamp so common on the cotton farms can be dispensed with.

The plant requires minimum attention and gives protection from fire to the seed house, lint rooms and other storage places requiring the constant watch and attention of the cotton grower.

With **DELO-LIGHT**, electricity—bright, clean and safe—can be switched on just by pressing a convenient button.

**Specifications—The Engine and Generator:** Self-cranking, Air Cooled, Ball Bearings, Self-Stopping. **RUNS ON KEROSENE, GASOLINE OR GAS.** **The Storage Battery:** Glass Jars, easy to care for; thick plates, rubber sheets; wood separators. Durable and efficient.

**DELCO-LIGHT** is a safe, dependable and economical system for lighting and power. It brings all of the conveniences and comforts of the city to the farm or country home.

**DELCO-LIGHT** will run the washing machine, iron, electric fans, vacuum cleaner, milking machine, churn, feed mill, grindstone—in all about 200 electrical appliances. It is also a dependable servant on the woman's dressing table, giving splendid illumination, as well as power to heat the curling irons, operate vibrators, warming pads, etc.

There are over 70,000 satisfied **DELCO-LIGHT** users.

4,000 **DELCO-LIGHT** plants were delivered to the Government for war work.

## READ WHAT THESE SOUTHERN USERS SAY

Miss Mary Fields, Martin, Tenn.:

"Four months ago you installed a Delco-Light plant in our home. Words cannot express the pleasure and convenience it affords us. Our Delco-Light plant has made our home as modern as the best of homes in the city. We are now using electric lights in both house and barn. We also have an electric fan, iron, churn and washing machine.

"Last, but not least, our Delco-Light pumps all the water for house and stock use. It is far superior to the muddy water of the pond for stock and is just the life of our farm to have it. We would not do without Delco-Light for double the amount we paid for it. It only costs us 8 cents a day to operate Delco-Light and all its accessories.

"Nothing gives me more pleasure than to show anyone our Delco-Light plant and explain all about it to them."

Mr. J. A. Kirby, Neshoba, Tenn.:

"You installed a Delco-Light plant for me July, 1917. It is making life worth living and is giving us the same conveniences people in the city have. We do not understand how we got along without one."

Mr. J. W. McCord, Sabougla, Miss.:

"We are using Delco-Light, which also operates our washing machine and churn. Don't see how we got along without it. My lights, washing and churning take on an average of one quart of coal oil a day.

"If you see fit to refer anyone to me, I will gladly answer any questions they may want to ask."

Mr. R. E. Miller, Brighton, Tenn.:

"The Delco-Light plant is giving me complete satisfaction. I have used it for nearly two years and have been at no expense but oil and kerosene. For efficiency and economy I would not hesitate to recommend it."

Mr. M. L. Southall, Covington, Tenn.:

"I bought a Delco-Light system from you, and beg to say that it is the most satisfactory investment I ever made and is a pleasure to myself, wife and children. It is something from which we derive pleasure every night in the year.

"My house, barn and outbuildings have no more the effect of dungeons, but are brightly lighted with the soft, mellow rays of Delco-Light, which makes country life the happiest existence in the world.

"I most heartily recommend the Delco-Lighting plant to any farmer throughout the country to be the best light in the world."

Mr. J. B. Jennings, Henning, Tenn.:

"I have been using the Delco-Light system which you sold me to a great advantage, as it is lighting my gin and dwelling with perfect success.

"I consider the Delco-Light system the most up-to-date and economical system on the market. It is a pleasure for me to recommend it to anyone."

H. E. Little, Oma, Miss.:

"With reference to the Delco-Light plant, I think it would be a good investment for every farmer in the United States as a time-saving machine."

E. M. Odom, Star, Miss.:

"We use 36 lamps from our Delco-Light, also run fans and sewing machine, which gives perfect satisfaction, and is a good investment."

Mr. R. C. Burton, Crystal Springs, Miss.:

"The Delco-Light plant is doing splendidly for me and I take great pleasure in recommending it to anyone for a good, clean light."

Mr. C. G. Boyette, Ruleville, Miss.:

"I consider that Delco-Light is indispensable. There is none that equals it."

Davis Brothers, Bailey, Tenn.:

"We have had Delco-Light for over two years now, and it has given perfect satisfaction. We take great pleasure in recommending it to anyone that wants good lights."

Mr. C. M. Scott, Forest Hill, Tenn.:

"I consider the Delco-Light plant one of the best investments I ever made."

Mr. E. T. Smotherman, Christiansa, Tenn.:

"Delco-Light is the greatest convenience and pleasure that a country merchant can invest in. Always ready at the right time."

Mr. Andrew Spain, Murfreesboro, Tenn.:

"We consider the service of Delco-Light a good insurance investment, as it is absolutely safe. We also operate a motor from Delco-Light which pumps our water and does the churning, which adds as much pleasure and comfort as the lights themselves. We are tickled to death."

Mrs. H. A. McGehee, Marion, Ark.:

"Delco-Light has been the most satisfactory piece of machinery I ever owned."

Mr. W. H. Alcorn, Marked Tree, Ark.:

"Delco-Light helps us wonderfully; don't see how anyone can do without one. It operates my pump, which I would not give for one man's time."

Mr. R. B. Collier, Cheap Hill, Tenn.:

"Delco-Light is fine, and in the future I intend to install some of its accessories. The plant is entirely satisfactory and I would not do without it for much more than the cost."

Mr. S. M. Lee, Mgr. Lee Line Steamers, Memphis, Tenn.:

"The Delco-Light plant is very reliable and essential. Lights on our Memphis wharves enable us to load and unload river boats at night."

Mr. E. A. East, Tyrone, Ark.:

"I have run my plant about three years now, and have had no trouble at all with it."

Mr. W. J. Kaiser, Homewood Plantation, Natchez, Miss.:

"Delco-Light helps us. By milking 100 cows with Delco-Light power, we can do the work with a milking machine in five and a half hours that formerly took 18 hours, thereby releasing labor for farm work."

Mr. S. T. Armstrong, Natchez, Miss.:

"We have found our Delco-Light plant to be very satisfactory, and that on the farms where they are installed they add materially to the general efficiency. Not only do they save time by substituting electric power for hand power, but in the increased hours the busy farmer is able to put in after dark, by having a safe and convenient light for both nights and early mornings."

Mr. F. E. Mann, Hendersonville, Tenn.:

"Delco-Light makes the country home more attractive and livable, and costs much less than coal oil lights for the same amount of light."

Mr. J. W. Hindley, Mercer, Tenn.:

"Delco-Light saves us lots of time, and is very economical."

Mr. H. C. Weber, Hermitage, Tenn.:

"Delco-Light is decidedly the best plan of an individual lighting system and power service I know of."

Mr. J. H. Aldridge, Burdett, Miss.:

"We would not be without Delco-Light for the world. Have never experienced any trouble in the two years we have had it."

Mr. John E. Uzzell, Pecan Point, Ark.:

"Delco-Light has proved to be a grand success to me. It is a wonderful thing."

Mr. R. K. McBride, Covington, Tenn.:

"The Delco-Light plant which I bought from you some time ago is entirely satisfactory. Any 10-year-old child can operate it. It is something that my family and I enjoy 365 nights in the year. Every country home should have one, and I will take pleasure in recommending it to anyone."

Mr. S. L. Vandegrit, Covington, Tenn.:

"I want to express my opinion of a Delco-Light which I use in my home, barn and outbuildings. I consider the Delco-Light the best and most simple lighting system I have ever seen or heard of. It is a great pleasure and time-saver for me."
